Judge Camilla Rauma-Sehm

- what happened?
Fraud, Judicial and mediator misconduct, abuse, discrimination, and false imprisonment. Breaches of inter alia Finnish Law, Human Rights Law, the Finnish Constitution, the Mediation Act,

Brief Summary:
I am in part, filing this complaint to continue to create a paper trail of evidence of negligence, misconduct, corruption and fraud.
I will not stop until I have justice or until the world knows what has been done to me.

On the 23rd of December 2022 Erkki and Erja Pasanen filed a false statement with the Helsinki District Court, and it has destroyed my life.

There are bank statements, phone recordings, Court recordings, emails, and witnesses to show their fraud.

They have been helped and enabled by Judge Kirsi Kohonen and Judge Camilla Rauma-Sehm.

Every single point of their original false statement to Court is provable as false and fraud and perjury.

Judge Kirsi Kohonen has made a point of either withholding that evidence, obstructing it, or outright ignoring it.

Judge Kirsi Kohonen went so far in her collusion to organise to have me essentially barred and blocked from legal aid. I have phone recording evidence of Lauri Huumonen of the Helsinki Legal Aid office stating exactly this.

Prior to the first Court date on the 2nd day of June 2023, I was invited to Court mediation. I refused with detailed reasoning related to the Pasanens fraud.

Camilla Rauma-Sehm was set up as a Court mediator by Judge Kirsi Kohonen who will be subject of a separate complaint for Judicial misconduct.

There should not have been any mediation, as I had already refused mediation via a detailed written response as to why I was refusing mediation. However, on the 2nd day of June 2023, I was bulled and coerced into mediation by the Court. The Mediation Act states that this should not happen. That once mediation is refused, the matter is over. I should not have been forced into mediation.

From the beginning the mediation felt fraudulent – Erkki Pasanen began things by asking in Finnish is this it, is this where we get what we want?

The mediation began with Camilla Rauma-Sehm attacking my non-binary status and to make me an object of ridicule. There was very clear bias from the beginning.

Contrary to the Mediation Act, Camilla Rauma-Sehm demanded that it was illegal for me to speak about the events of mediation and that I could be prosecuted if I did.

There is nothing about this in the Mediation Act.

This was a direct fraudulent lie so Camilla Rauma-Sehm could attempt to trick me into being silent about the abuse I was about to be subjected to over the following two or more hours of coerced mediation.

The entire mediation was Camilla Rauma-Sehm attempting to coerce, intimidate and bully me into accepting everything the Pasanens wanted. It was fraud.

Camilla Rauma-Sehm at one point stated the Court judgement outcome seventeen days before the final day in Court, and threatened me that if I did not accept the Pasanens terms I could go to prison.

Camilla Rauma-Sehm falsely imprisoned me and told me I could not legally leave the building, essentially until I accepted what the Pasanens wanted.

I was subjected to sustained psychological manipulation and abuse in attempt to get me to accept the Pasanens bigoted fraud.

Camilla Rauma-Sehm at one point deprived me of my interpreter and threw her out of the room, leaving me without translation or interpretation. This was done when the interpreter was attempting to prevent me from being bullied.

Your office can continue to try and deny this happened.

But I have an audio recording of the entire mediation.

I have uploaded it to the Internet for safety.

There is direct word for word evidence of these lies, the abuse and fraud.

There's audio evidence proof of what I say.
3. Why do you feel the decision or procedure was unlawful? *
It was in repeated breach of the mediation act.

It was fraud.

It was discrimination/

It was intimidation.

It was abuse.

It is by the letter fraud and aggravated fraud under the Finnish Criminal Code.

It is, mediation misconduct, but more importantly it is, was, gross Judicial misconduct.

As Camilla Rauma-Sehm made a point of it being known she was a Judge.
4. Have you complained to another authority about the matter? *
- to what authority? *
- when? *
- has a decision in the matter already been announced? *
No.

The audio is available.

You keep white washing this, I'll inform friends to release it onto Youtube and the world can see how your Judges act when they think no one is listening.
